DOCKETED

OCT 18 2006

I wish to intervene for the following reasons:

1. Well is contaminated, with notices "DO NOT DRINK OR BOIL THE WATER".
2. NO maintenance is kept up on the well system that would be expected from a utility company that serves the public.
3. Little or No water pressure at all times.
4. Contaminated from the inside out on the holding tanks. Leaks are very visible all the way around the tanks, and they're leaking out.
5. Concerned that the water company has many debts owed that will keep them from properly maintaining and providing adequate water now and in the future.
6. The water company is now affecting the property values of our homes.
7. We're paying for water service that we cannot use now or in the future.
8. We have had to purchase water weekly for all of our cooking and drinking needs for over 3 years and it's getting very costly.

Sincerely,

Craig Sampson
